Search for restricted articles eg. alcohol, chemical substances, tools etc.

Unsafe and restricted articles

While packing your bags, ensure that you only carry what is considered safe for air travel. Be it in your carry-on or checked-in baggage, such hazardous items may pose a threat to you, other passengers and crew onboard. To make it easier for you, here is a quick guide to the list of items that are unsafe for flight travel. If you are carrying any of these items, do inform the security-check personnel and discard them as per the instructions given to you.

Alcohol

Alcoholic beverages

Carry on: No ⓘ **Check In: Yes**

A person can carry a total net quantity of 5 l / 169 oz of alcohol.

Please note that the bottle should be in original retail packaging, and the receptacle should not exceed 5 l / 169 oz. Additionally, the alcohol content by volume should be between 24% and 70%.

Liquid, Aerosol and Gels (LAGs) may include but not limited to water, liquid content, creams, lotions, cosmetics, oils, perfumes, deodorants and other sprays, gels, shaving foam, toothpaste, lip gloss, lip balm or any item of similar consistency at room temperature.

Below are the regulations for carrying LAGs when travelling with us:

1. Each LAG must be in containers of 100 ml or less, or its equivalent in other volumetric measurements. Please note, LAGs in containers larger than 100 ml will not be accepted even if they are partially filled.
2. All containers must be carried in a 1 litre transparent re-sealable bag.
3. The containers should fit comfortably and completely in the transparent re-sealable bag.

to transfer any LAGs exceeding the allowed quantities (as mentioned above), purchased from retail outlets or vending machines at foreign airports or onboard aircraft, to your checked baggage prior to the security screening process at Indian airports.

7. Exceptions to the above regulations are permissible for domestic passengers as per the following:

1. Medical needs

- Medicines with a total volume exceeding 100 ml, whether prescribed by a doctor or acquired over the counter, may be acceptable if it is essential to be carried during the journey and the amount to be carried is no more than is necessary for the journey.
- Substances that are not medicines but are used for medical purposes are permitted, such as ice.
- A proof of authenticity is required to be presented for the LAG is requested. The name on the label of prescription medication should match the name on the boarding pass. In the case of over the-counter medication, the quantity of medication should be just enough for the duration of the journey. In the case of prescribed medication, the passenger should be able to produce a note from the doctor.

2. Dietary specifications

If you have specific dietary restrictions, for example, lactose- or gluten-intolerance, you are allowed to carry your prescribed food. Although, at the screening point, if the quantity of the food is deemed excessive you will not be allowed to carry the full quantity.

3. Infant/ Baby food

Baby food or baby products like wet wipes, milk or juice, sterilised water, and meals in liquid, gel or paste form are permissible provided they are deemed just enough for the duration of the journey.

FEEDBACK

UP

Battery-powered wheelchairs and mobility aids

Battery-powered wheelchairs or other similar mobility devices with lithium-ion batteries where the design of the mobility aid does not provide adequate protection for the battery(ies).

Carry On: Yes **Check In: No**
