

CABIN BAGGAGE

Cabin Baggage or Carry-on Allowances

Planning to fly with us soon? Then, here’s what you need to know about what is permitted onboard and what is not. You can bring one carry-on bag and one additional small personal item, such as a handbag for your devices, that must fit under the seat in front of you.

To avoid any hassle, please check the dimensions, weight, and items allowed onboard before packing.

As per Indian government security regulations, passengers are entitled to bring one piece of carry-on bag within the limitations below:

Class of travel	Premium Economy and Economy	First and Business Class
Maximum weight	7 kg / 15 lb	10 kg / 22 lb
Size limitations	Height: 55 cm / 21 in Length: 40 cm / 15 in Width: 20 cm / 7 in The total dimensions of the bag must not exceed 115 cm / 45 in 	

Note:

- Passengers may carry only one piece of hand baggage in compliance with security regulations (ref. BCAS “One Hand Baggage Rule”, Circular 6/2000,

Feb 2000).

- This applies to all classes of travel, regardless of Maharaja Club or STAR Alliance frequent flyer
- Any baggage in addition to your cabin baggage and personal item, or carry-on baggage beyond the allowed size and weight limit, will need to be checked in. You may have to pay an additional charge if the combined weight of the baggage exceeds your free baggage allowance or maximum size limits.

One small personal item as an additional allowance

Restricted/prohibited items

Liquids, aerosols, and gases (LAGs)

Avoid carrying liquids, aerosols or gels over 100 ml in your cabin baggage.

Examples of such items include:

- Beverages
- Toiletries such as shampoos, toothpaste, sunscreen, and moisturisers
- Hair gels and spray
- Liquid cosmetics or any other items of similar consistency
- Medicines and inhalers with prescriptions and baby food are an exception. These items should, however, be carried in a clear, transparent, re-sealable one-litre plastic bag. You will also need to comply with the prescribed screening and security checks to ensure safety.

Batteries

- You can carry battery cells for any electrical or electronic items as hand baggage.
- Spare or loose batteries, including lithium-ion ones for portable electronic devices, must be carried in hand baggage only.
- For lithium-metal batteries, the lithium metal content must not exceed 2 g.
- For lithium-ion batteries, the Watt-hour rating must not exceed 100 Wh.
- Power banks are considered spare batteries. They must be packed individually to prevent short circuits. You can only carry a maximum of 2 spare batteries with you.

Kirpan (only on domestic flights)

Passengers are permitted to carry a kirpan on their person only on flights operating within India. The kirpan must meet the following size restrictions:

- Blade length must not exceed 15.24 cm (6 inches)
- Total length (including the handle) must not exceed 22.86 cm (9 inches)

FEEDBACK

Note: On international flights, and on domestic flights operating from the Security Hold Area (SHA) of the international terminal, kirpans are not permitted to be worn or carried as part of carry-on baggage.

Unsafe/Prohibited items in cabin baggage

As a passenger, it is your responsibility to ensure that hazardous, unsafe, or prohibited items are not carried in your cabin baggage. This includes:

- Samsung Galaxy Note 7
- Lithium battery-powered self-balancing devices
- Drones (Nano, micro, and small drones weighing up to 2 kg/ 4lb can be carried as cabin baggage)
- Remotely Piloted Aircraft System (RPAS)
- Unmanned Aircraft System (UAS)
- Unmanned Aerial Vehicle (UAV)

Powder-like substances on US-bound flights

Powder-like substances are fine dry particles produced by grinding, crushing, or disintegrating solid substances (for example, flour, sugar, ground coffee, spices, powdered milk such as baby formula, and cosmetics), including powders in clumpy, grainy, or compressed forms.

The Transport Security Administration (TSA), US Department of Homeland Security, allows the carriage of powder-like substances in hand baggage when you are travelling to destinations across the US. It is subject to the following conditions:

- The cabin baggage can carry medical powder-like substances, baby formula, and human remains (up to 350 ml or larger).
- Duty-free powder containers inside a properly sealed Secure Tamper Evident Bag (STEB) may be allowed through the checkpoint.
- Powder-like substances of any quantity may be placed in the checked baggage and transported in the baggage hold area of the aircraft.

Other local regulations

- It is also advisable to check the local regulations of the country you are travelling to and from before you pack your hand baggage.

Guidelines for codeshare flights and on multiple airlines
